

Join the journal network

As a part of the Rubriq Network, your journal can **attract more of the papers you want**, and get greater exposure to new authors. You can also use Rubriq Reports to help **streamline your screening process**.

There is **no cost** for journals to gain access to our variety of benefits, tools, and resources. Beyond the two basic levels, we also offer a partner level for those journals or publishers who are interested in additional customization, integration, and expanded benefits.

Network Options Overview:

 Verified	Journals that have logged in and verified and/or updated the information that is listed in Rubriq’s proprietary journal database.
 Active	In addition to verification, these journals welcome the Rubriq Report with submissions, and can access unpublished papers in the network.
 Partner	Active members who provide some additional advantage to authors who submit with a Rubriq Report (e.g., fast track process, pre-approval)

Benefits for **Active Journals**

visibility	<ul style="list-style-type: none"> Highlighted in journal recommendation lists. Featured (name &/or logo) on Rubriq’s website. Can display the Rubriq Network seal and promote Rubriq to your authors.
access	<ul style="list-style-type: none"> View the complete Rubriq Report, including reviewer data (also available to Verified journals). Search for papers of interest in the Rubriq network, and contact authors directly.
options	<ul style="list-style-type: none"> Set preferences to match papers based on minimum threshold R-Scores and/or keywords. Set up email alerts to be notified when a paper of interest has been reviewed and is available.

Additional Benefits for **Partners**

visibility	<ul style="list-style-type: none"> Prominent positioning when appearing in journal recommendation lists shown to authors. Additional co-marketing, public relations and other promotional opportunities.
access	<ul style="list-style-type: none"> More customization options for paper matching preferences beyond keywords and R-Score. Potential to develop direct integration options with custom technical/API support.
options	<ul style="list-style-type: none"> Attract more authors with an additional advantage/incentive to submit. Some options include: <ul style="list-style-type: none"> Use Rubriq to offer a “fast-track” option for authors. Offer a “pre-acceptance” status to papers that meet your journal’s requirements Integrate the Rubriq Report with your processes to help save operating costs, allowing you to offer authors a reduced publishing/submission fee (e.g. shared APC)

*To become an Active member or request Partner status, visit the **Preferences** section of your Journal Dashboard.*
